The MAILING DATE of this communication appe Period for Reply	ears on the cover sheet with the co	orrespondence address	
A SHORTENED STATUTORY PERIOD FOR REPLY THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.13 after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply if NO period for reply is specified above, the maximum statutory period with the period for reply will, by statute, Any reply received by the Office later than three months after the mailing earned patent term adjustment. See 37 CFR 1.704(b).	6(a). In no event, however, may a reply be tim within the statutory minimum of thirty (30) days ill apply and will expire SIX (6) MONTHS from t cause the application to become ABANDONED	ely filed will be considered timely. the mailing date of this communication. 0 (35 U.S.C. § 133).	
Status			
1) Responsive to communication(s) filed on			
	-· action is non-final.		
3)☐ Since this application is in condition for allowan		secution as to the merits is	
closed in accordance with the practice under Ex	x parte Quayle, 1935 C.D. 11, 45	3 O.G. 213.	
Disposition of Claims			
4) Claim(s) 1-23 is/are pending in the application.			
4a) Of the above claim(s) is/are withdraw	n from consideration.	. '	
5) Claim(s) is/are allowed.			
6)☐ Claim(s) is/are rejected.			
7) Claim(s) is/are objected to.			
8)⊠ Claim(s) <u>1-23</u> are subject to restriction and/or e	lection requirement.		
Application Papers			
9)☐ The specification is objected to by the Examiner	:		
10)☐ The drawing(s) filed on is/are: a)☐ acce	pted or b) \square objected to by the E	xaminer.	
Applicant may not request that any objection to the d	lrawing(s) be held in abeyance. See	37 CFR 1.85(a).	
Replacement drawing sheet(s) including the correction 11) The oath or declaration is objected to by the Example 11.	• • • • • • • • • • • • • • • • • • • •	· ·	
Priority under 35 U.S.C. § 119

1) Notice of References Cited (PTO-892)

Paper No(s)/Mail Date _____.

2) Notice of Draftsperson's Patent Drawing Review (PTO-948)
3) Information Disclosure Statement(s) (PTO-1449 or PTO/SB/08)

4) Interview Summary (PTO-413)
Paper No(s)/Mail Date. _____.

5) Notice of Informal Patent Application (PTO-152)

6) Other: ____.

Application/Control Number: 10/602,041 Page 2

Art Unit: 1763

DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- Claims 1-10, drawn to a substrate processing apparatus with flow regulators and a controller classified in class 118, subclass 688.
- II. Claims 11-15 drawn to a substrate processing apparatus with blow-off lines and a controller classified in class 118, subclass 715.
- III. Claims 16-18, drawn to a substrate processing apparatus with a plurality of ozone generating chambers, classified in class 118, subclass 695.
- IV. Claims 19-20, drawn to a substrate processing method that controls the flow rate of oxygen fed to the ozone generator, classified in class 427, subclass 248.1.
- V. Claims 19-20, drawn to a substrate processing method that discards a part of the ozone containing gas, classified in class 427, subclass 248.1.
- VI. Claims 21-22, drawn to a substrate processing method that controls the flow rate of oxygen fed to the ozone generator, classified in class 427, subclass 248.1.
- VII. Claim 23, drawn to a substrate processing method that controls the number of ozone generators on line, classified in class 427, subclass 248.1.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Groups IV-VI and Groups I-III are related as process and apparatus

Application/Control Number: 10/602,041 Page 3

Art Unit: 1763

for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus as claimed can be used to practice another and materially different method such as controlling the supply of a gas other than ozone, such as activated nitrogen or hydrochloric acid.

- 3. Inventions of Group I, II and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation.
- 4. Inventions of Group IV, V and VI are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation and different effects.
- 5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- 7. Applicant is advised that the reply to this requirement to be complete must

Application/Control Number: 10/602,041 Page 4

Art Unit: 1763

include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

- 8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
- 9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrie R. Lund whose telephone number is (571) 272-1437. The examiner can normally be reached on Monday-Thursday (6:30 am-6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gregory Mills can be reached on (571) 272-1439. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
